MICHIGAN STATE BOARD OF EDUCATION
STATEMENT OF ASSURANCE OF COMPLIANCE WITH FEDERAL LAW

The Michigan State Board of Education complies with all Federal laws and regulations prohibiting discrimination and with all requirements and regulations of the U.S. Department of Education. It is the policy of the Michigan State Board of Education that no person on the basis of race, color, religion, national origin or ancestry, age, sex, marital status, or handicap shall be discriminated against, excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination in any program or activity for which it is responsible or for which it receives financial assistance from the U.S. Department of Education.

The Grades 6-8 *Participation English Language Arts and Mathematics* assessment was administered for the first time in Fall 2007. The Office of Educational Assessment and Accountability (OEAA) will annually release a portion of the items that are administered on the assessment. This booklet contains released items from the Fall 2008 administration and is intended to be used by districts to assist in their interpretation of item analysis data. The information contained in this booklet may also be used by schools, teachers, and parents as a resource for understanding the content and format of the assessment items. In addition to MI-ACCESS training materials and Extended Grade Level Content Expectations (EGLCEs), the released items may also have utility in informing decisions related to instruction, curriculum, and assessment. These items are **not** secure and may be copied and distributed as needed.

The table below lists the number of core and released items administered on the Fall 2008 Grades 6-8 *Participation English Language Arts and Mathematics* assessment. Core items are those that count toward students' scores. All released items in this booklet were selected from the pool of core items that appeared on the assessment.

English Language Arts Assessment Component	Number of Core Items	Number of Released Items	Number of Embedded Items
Accessing Information			5 (varies by assessment component)

Participation General Directions

- Prior to administration, review the assessment items. The Participation assessment uses two item formats: selected-response and activity-based observation. All items are scored with the Participation Scoring Rubric. Learning how to apply the rubric correctly is very important to the reliability of the assessment. The *2008/2009 MI-Access Coordinator and Assessment Administrator Manual* and the MI-Access Participation and Supported Independence (P/SI) Scoring Rubrics Online Learning Program (www.mi-access.info) both contain examples on how the rubric should be applied. In addition, the "Scoring Rubric Flow Chart" included in the manual explains when to give a student a score point or a condition code.
- All items are designed to assess the English language arts (ELA) and mathematics Extended Grade Level Content Expectations (EGLCEs), which link the assessments to the Michigan Curriculum Frameworks' Content Standards.
- All answer choices for selected-response items require graphics. These have been provided as thumbnails on the page containing the item and as separate full-page (8½ x 11) picture cards coded to the individual items for which they will be used. Prior to administration, review the items and corresponding picture cards to ensure that you have the correct one for each item. When administering the assessments, these picture cards must be presented to the student two times in a different order, and the student must respond correctly both times. Both the MI-Access manual and the scoring rubrics online learning program provide detailed descriptions and examples of how to present items with picture cards to the student.
- The activity-based observation items are designed to (1) reflect classroom activities with which students should be familiar, and (2) provide a performance context in which specific Michigan ELA and mathematics EGLCEs can be assessed. Review the item components, which include the actual activity that will be observed and the scoring focus.
- Plan for appropriate materials and any individualized communication or technology devices the student may need, such as augmentative communication devices and/or other specialized equipment. Keep in mind that any aids or materials used must be chronologically age appropriate and reflect what the student typically uses during instruction (in other words, do not introduce a new device or material during assessment administration).
- If possible, plan observation times when the item/activity may typically occur. While some activities will occur naturally in the classroom, others may require more detailed planning in order to observe the specific scoring focus. Prepare to adjust the instructional environment as needed.
- Persons involved in the assessment should follow universal health precautions when needed.
- Determine which **two** people will observe and score the items. A certified professional staff member (such as a teacher, school psychologist, related service provider, or teacher consultant) must act as the Primary Assessment Administrator (PAA). Shadow Assessment Administrators (SAA) can also be certified staff or other school personnel (such as highly qualified paraprofessionals). Keep in mind that both PAAs and SAAs must (1) be familiar with the student, and (2) not impede or influence any interaction particular to the item.
- Both the PAA and SAA will need to tear or cut out their respective MI-Access Assessment Administrator Scoring Documents, which are located in the assessment booklet following the assessment items. This is where the PAA and SAA will record the score point or condition code for each selected-response or activity-based observation item. Using a separate scoring document allows the PAA and SAA to independently score the student's response to each item. Once all of the items have been administered, the score points or condition codes recorded by the PAA and SAA must be transferred to the student's answer document using a Number 2 pencil.

STUDENT DIRECTIONS: Do and say whatever is typically done or said to allow the student to engage in each item, UNLESS otherwise directed in the item.

Item R1

ACTIVITY: The student will identify 2 words paired with pictures (from a set of 2 related and 2 unrelated words with pictures) associated with an instructional routine, such as book, pencil, or computer, during the preparation time for a class lesson.

SCORING FOCUS: Identifying frequently encountered words related to a specific task

Item R2

ACTIVITY: The student will correctly answer 2 “yes/no” questions to express understanding of a magazine article (read to him/her by staff) during a reading opportunity, such as leisure time, an instructional lesson, or current events.

SCORING FOCUS: Responding to text to reflect understanding

Item R3

ACTIVITY: The student will respond appropriately to a greeting from a familiar person, such as a teacher, principal, or related service provider, during school arrival or dismissal time.

SCORING FOCUS: Responding to and/or communicating with a variety of audiences

Section 2

Mathematics

STUDENT DIRECTIONS: Do and say whatever is typically done or said to allow the student to engage in each item, UNLESS otherwise directed in the item.

Item R1

ACTIVITY: The student will correctly associate value with the number 1, by following directions to select or indicate only 1 from a set of 3 like objects used in a familiar cleaning routine. For example, the student could be shown a row of 3 paper towels and then told, "Take one paper towel," and the student indicates that only 1 paper towel should be taken.

SCORING FOCUS: Associating value with the number 1

Item R2

ACTIVITY: The student will correctly choose which 1 of 2 options is the regular object or message to deliver at the appropriate time of day. For example, if the student is involved with taking the attendance list to the office each morning, he/she will select the attendance list instead of another list or object when asked, "Which one do we take to the office at this time?"

SCORING FOCUS: Associating activities with time of day

Item R3

ACTIVITY: The student will correctly select something round when presented with 2 objects, 1 round and 1 square, during a familiar instructional activity. For example, the student could be presented with a square toy and the round top of a plastic container and then be asked, "Which one is round?"

SCORING FOCUS: Differentiating between round and square

Both the Primary Assessment Administrator (PAA) and the Shadow Assessment Administrator (SAA) will need to tear or cut out their respective MI-ACCESS Assessment Administrator Scoring Documents. This is where the PAA and SAA will record the score point or condition code for each selected-response or activity-based observation item. Using a separate scoring document allows the PAA and SAA to independently score the student's response to each item. Once all of the items have been administered, the score points or condition codes recorded by the PAA and SAA must be transferred to the student's answer document using a Number 2 pencil.
